

CONTENTS (Modules)

www.retinair.com

SECTION 1

- 1 Basic Principles of Ophthalmology
- 2 Ophthalmic Semiology
- 3 Ophthalmic Imaging
- 4 Ocular Pharmacology in the treatment of Retinal and Choroidal Diseases
- 5 Basic Principles of Retinal Photocoagulation

SECTION 2

- 6 Diabetic Retinopathy
- 7 Age-Related Macular Degeneration
- 8 Vein Occlusion and other Non-Diabetic Retinal Vascular Diseases
- 9 Clinical Occurrences in Systemic Diseases
- 10 Causes for Neovascular Chorioretinal Disease, other than diabetes or AMD
- 11 Hereditary Degenerative Diseases
- 12 Pediatric Retina

SECTION 3

- 13 Retinal Detachment and Vitreoretinal Proliferation
- 14 Basic Principles of Vitrectomy and MIVS
- 15 Surgical Management of Maculopathies
- 16 Ocular Trauma
- 17 Complications of Anterior Segment Surgery in the Posterior Segment
- 18 Intraocular Tumors
- 19 Intraocular Tumors in Pediatric Patients

SECTION 4

- 20 Uveitis I
- 21 Uveitis II
- 22 Uveitis III
- 23 Scientific Research Methodology
- 24 Evidence-Based Medicine
- 25 Legal Aspects in Retina
